SATELLITE FORENSIC EVIDENCE & META FOUNDATION REASONING

Visual Forensic Finding:	High-resolution spectral analysis confirms rapid canopy clearance and perimeter masonry construction within the Kukrail Reserve Forest & Wildlife Sanctuary Eco-Sensitive Buffer Zone at Site LKO-ENC-20261023-232. Clearing of natural tree cover replaced by bare soil and linear masonry boundary walls.
Ecological Threat:	Severe fragmentation of the Kukrail forest wildlife corridor, biodiversity depletion, and illegal deforestation compromising Lucknow's primary green carbon sink.
