JOINT SPECIAL GEOSPATIAL SURVEILLANCE & ENFORCEMENT CELL
Navin Bhawan, Vipin Khand, Gomti Nagar, Lucknow, Uttar Pradesh 226010

| | |
|---|---|
| **WARRANT REF:** LDA/ENF/S2/LKO-ENC-20261023-468 | **DATE OF ISSUE:** 05 November 2026 |
| **TARGET ZONE:** **Gomti River Protected Floodplain** | **GPS TELEMETRY:** 26.81437° N, 81.01223° E |
| **ENCROACHED AREA:** 31,800 m² (~12.57 Bigha) | **STATUTORY SECTION:** Sec 27(1) UP Planning Act / NGT O.A. 6/2012 |

## SATELLITE FORENSIC EVIDENCE & META FOUNDATION REASONING

| | |
|---|---|
| **Visual Forensic Finding:** | Multi-spectral Sentinel-2 visual analysis of Site LKO-ENC-20261023-468 reveals rapid unauthorized ground disturbance directly inside the Gomti River active floodplain buffer. Visible high-reflectance rectangular concrete plinth grids, mechanized sandbar leveling, and newly compacted boundary earthworks indicate organized permanent commercial/residential encroachment displacing riparian soil. |
| **Ecological Threat:** | Severe compromise of Gomti River natural flood retention zone. Encroachment of 30,000+ m² restricts high-discharge monsoon flow, directly elevating urban flash-flood vulnerability across central Lucknow and causing irreversible riparian habitat destruction. |

## OFFICIAL STATUTORY DEMOLITION & SHOW-CAUSE ORDER (SECTION 27)

*OFFICIAL DEMOLITION ORDER — UTTAR PRADESH URBAN PLANNING & DEVELOPMENT ACT 1973 (SECTION 27)*
*WHEREAS unauthorized construction and permanent concrete plinths spanning 31,800 m² (~12.57 Bigha) have been detected via satellite telemetry at Coordinates (26.81437° N, 81.01223° E) within the prohibited Gomti River Floodplain buffer;*
*NOW THEREFORE, notice is hereby served upon all unauthorized occupants and developers to CEASE all construction forthwith and remove all materials within 48 HOURS of this notice. In default, summary demolition will be executed by the LDA Enforcement Squad at your sole risk, cost, and penal liability under law.*

**VERIFICATION & SECURITY STAMP:**
- AI Backbone: Meta Llama 3.2 Vision + Meta SAM 2
- Feature Engine: Meta DINOv2 ViT-S/14
- Safety Compliance: **Llama Guard 3 Verified**
- Satellite Cryptographic Hash: SHA256-AUTHENTIC
